@ foam conversion

The logo for MicrophoneFlag.PL features a stylized microphone icon on the left, with the text "MICROPHONEFLAG.PL" in a bold, blocky font. The word "MICROPHONE" is in black, "FLAG" is in red, and ".PL" is in black. The entire logo has a white outline and a slight glow effect.

PROFESSIONAL MICROPHONE WINDSHIELDS

WINDSHIELD DECORATION

FLOCKED WINDSHIELDS

We are able to offer a flocked finish to your windshields if required. Flocking adds a velour type coating to the outside of the windshield that has 2 main benefits:

- A flocked finish enhances the audio performance of the windshield, especially in outdoor situations.
- Using the flocked coating we are able to offer windshields coloured to match almost any Pantone reference, as well as multi-coloured windshields.

PRINTED WINDSHIELDS

Using a range of techniques developed over many years we are able to offer a comprehensive printing service ranging from single to full colour prints. Together with a flocked coating this means we are able to supply windshields completely tailored to your needs.

WINDSHIELD SIZING

To offer our customers maximum flexibility and variety, we offer all of our windshields with the choice of multiple internal dimensions to fit different sizes of microphone.

Next to each model in this brochure you will find a list of the standard hole sizes for that particular windshield.

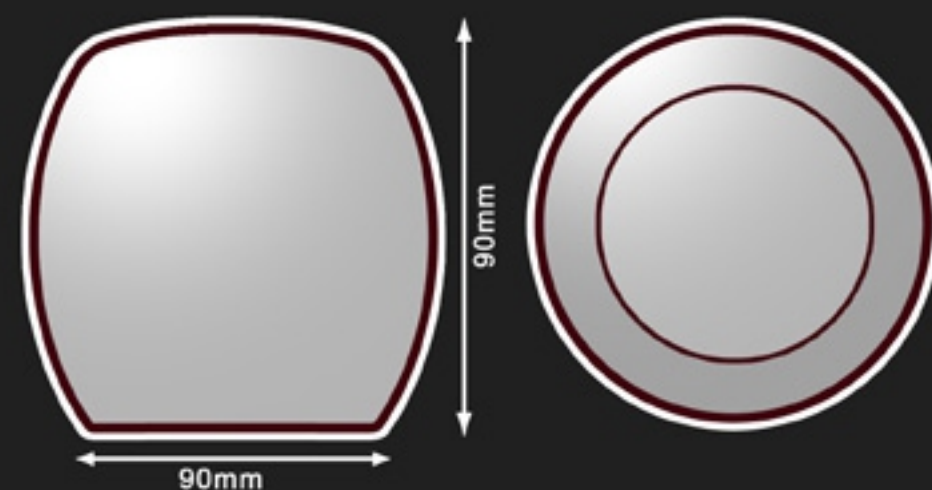

We are also able to provide contoured internal bores to better fit certain microphones and which can, in some circumstances, allow one windshield to fit a number of different sized microphones.

If you are unsure which option to use, please provide us with the microphone models you are using and we will advise the correct dimensions.

For a free demo, please contact us at: shop@microphoneflags.pl

CYLINDRICAL HANDHELD WINDSHIELDS

C1100

Available options:

CUSTOM WINDSHIELDS

The models listed in this brochure are our standard range of windshields, but as all tooling and production is done in house we are also able to manufacture products to your specific requirements. In the past these have included custom windshields - some up to 800mm in length, foam microphone flags and printed pop shield foams.

If you have any bespoke requirements please do not hesitate to contact us.
